About
Wafi Solutions

Founded in 2013, Wafi Solutions has grown into a leading provider of **custom software solutions,** helping businesses navigate digital transformation with confidence. With a strong focus on innovation and efficiency, we design solutions that streamline operations, improve productivity, and drive sustainable growth.

With a client base spanning **Saudi Arabia, the UK, Australia, Canada, the USA, and Bangladesh,** we have successfully delivered **300+ projects** across various industries. Our flexible outsourcing model ensures **cost-effective, high-performance solutions** tailored to each business's unique needs. As a trusted technology partner, we are committed to delivering **scalable and future-ready** digital experiences that empower businesses to stay ahead in an ever-changing world.

Our core
Services

End-to-end digital solutions built for performance, security, and growth.

SaaS Solutions
Analyzing and engineering scalable SaaS products with 3rd party integrations. Our expert team develops custom web applications.

eCommerce Solutions
We craft scalable eCommerce; from custom stores to marketplaces, that drive conversions and streamline logistics.

AI-Powered Solutions
Unlock the power of AI with smart automation, predictive analytics, recommendation engines, chatbots, and custom machine learning models

App Development
Native and cross-platform apps designed to engage, scale, and perform, whether you're targeting Android, iOS, or both.

ERP Solutions
Unify your operations with custom ERP systems tailored to your industry, inventory, HR, finance, procurement, and more.

Cloud Solutions
Migrate, optimize, and scale with our cloud-native services. From DevOps to CI/CD pipelines, we future-proof your infrastructure.

MVP Development
Bring your vision to life with professional MVP development services designed to help businesses validate ideas, launch faster, and scale smarter.

CMS Services
Managing your web content should be simple, flexible, and stress-free. We offers powerful CMS solutions, whether you're building from scratch or optimizing existing platforms.

Outsourcing Service
We've an Exclusive Remote Team. With a decade of experience in sourcing the right tech talent, we excel in forming efficient and scalable software development teams.

Our
Journey

A story of growth, innovation, and trust built over the years.

2025 — Wafi Software

Wafi Software is a modern, technology-driven software brand built for entrepreneurs and businesses in Bangladesh. We believe that through digitalization, every business can grow faster, more easily, and more efficiently at an affordable cost.

waficommerce — 2024

WafiCommerce is a leading-edge multi-tenant SaaS platform designed for retail businesses, with a strong focus on publishing companies, enabling them to manage sales, inventory, and operations efficiently from a single, scalable system.

2023 — Kidoo

Kidoo is an innovative online learning platform that caters specifically to children, offering a diverse range of courses to foster their educational development and digital literacy, while making learning fun, safe, and engaging through interactive experiences.

WAFI PUBLICATION — 2017

Wafi Publications, established in 2017 as a sister concern of Wafi Solutions, has quickly made its mark in the publishing industry. With a growing catalog, they have published 22 books to date, showcasing a commitment to quality content and literary excellence.

2015 — WafiLife

Wafilife is the second largest book e-commerce in Bangladesh with over 22,000 products. The platform also boasts over 0.3 million visitors per month, highlighting its widespread popularity and reach.

wafi solutions — 2013

Formed in 2013, Wafi Solutions has grown into a full-service bespoke software and automation solutions provider. Over the last ten years, we have earned a pedigree in delivering complex software solutions for some of the most interesting clients.
